

## UAS student, have you already visited DIGMA? – Immu here has!

The Finnish Online University of Applied Sciences' meta-databank DIGMA offers hundreds of eLearning materials, learning objects and courses produced by the UAS network. As a UAS student, you can freely use and modify the material for your own needs.

DIGMA offers interactive learning objects, exercises and educational games, whole courses and much more.

Orientation to East and South East Asia 5 ECTS > STUDENT GUIDE > Orientation to East and South East Asia

### Orientation to East and South East Asia

#### Objectives and Contents of Part B. Specialisation

After gaining the overview of the target area you have the opportunity to deepen your knowledge in your own special area of interest. You choose your target country (or area, if so agreed, e.g. a province in China),

Every UAS student may use the materials.

You can access DIGMA directly from the portal front page, without logging into the portal.

*Check out the DIGMA introduction and instruction videos at amk.fi!*
